

CARIBOU CONTESTS

Math made fun, for everyone!

Caribou is an **online educational platform offering math learning resources and competitions** for students in K - 12.

Available in **English, French, Mandarin, Ukrainian, Persian, Khmer, and Vietnamese.**

Each letter is a digit (0-9). Can you figure out their values?

$$\begin{array}{rclcl} ab & + & c & = & dd \\ x & - & & - & \\ e & + & f & = & c \\ = & = & = & & \\ fb & \div & e & = & ab \end{array}$$

Our online content is well-suited for distance learning, afterschool tutoring, home schooling, and blended learning programs. Individuals, classes, or whole schools can sign up on [our website!](#)

[The Caribou Cup](#) is an international online math contest held six times a year from October to May to keep you motivated all year long.

You can see your results and print certificates of merit the next day!

[Try our math and logic games](#), or sign up to get unlimited access. Dive into our "Food for Thought" strategy section and multilevel mini courses for self-study are available for all participating students.

The first contest in October is free, but a small fee gives you access to the whole Caribou Cup. Try [the previous October contest](#) and view over [250 video solutions](#) to select questions.

School, state, country, and world ranks available on our website!

All students are welcome to join our international math community, whether you're participating from your classroom or from home.
